Offering luxurious customized European Stalls.

The Odyssey Thunder Spa is engineered to withstand the harshest of working environments.

Wordley Martin Equestrian would like to congratulate one of our clients and friend Schuyler Ryley on her success this past summer at Tryon International Equestrian Center.

Schuyler Riley, of Stockton, N.J. and Wellington, Fla. and Dobra De Porceyo captured the the \$127,000 Ariat® Grand Prix FEI CSI 3* under the lights in the George H. Morris Arena in the Tryon Stadium at Tryon International Equestrian Center (TIEC) on July 5. A week later, the pair won the \$210,000 Asheville Regional Airport Grand Prix CSI 4*. Next was the \$127,000 Grand Prix CSI 3*, but this time the win was aboard Q-7. The last win made the most winning rider in the history of TIEC, accumulating more than \$150,000 in prize money throughout the four weeks of the Tryon Summer Series.

Riley has recently been working with Sharn Wordley, with Q-7 specifically. Wordley rode "Q" several times for Riley as the duo tried to fine-tune the 2006 Bayer gelding's (Que Sera x Peggy) steering in the ring.

"It's really funny because I went to Sharn earlier in the spring in Kentucky because I was having so much trouble with the steering. He couldn't figure it out and acted like he always knew where we were going, which he clearly didn't. He always tries to pick a direction and 50% of the time it's the wrong direction," she laughed. "Sharn got on him and did a little exercise with him to help with the steering and I do it religiously now. He's just gotten better and better. Sharn has helped me so much with this horse and I can't thank him enough."

Wordley Martin Equestrian's Completed Arenas of 2015

Congratulations!!
